PRODUCT OVERVIEW

CSR

## About Himmel

CSR Himmel is an integral member of CSR's building products group. Our dynamic portfolio of aesthetic and acoustic products showcase the best of our local and global partnerships. We strive to present products that enable customers to create inspirational, productive and beautiful spaces.

## About Ambience

Ambience by Himmel is the newest addition to the CSR Himmel product portfolio. Ambience is created by both the visual and acoustic effects within an environment, where a comfortable, romantic, fun or lively space can only be achieved by the level of ambience that is established. Ambience by Himmel is an innovative product range that combines acoustic and aesthetic solutions that result in beautiful interior spaces.

## Flat Ceiling Tile

The Ambience Flat Ceiling Tile range allows a standard ceiling to be brought to life with a pop of colour. Available in two thicknesses, 13mm and 25mm, the Flat Ceiling Tile provides superb sound absorption for any commercial space.

# Cloud

The Ambience Cloud range is available in eight cool shapes and a variety of different sizes.

This product is perfect for spaces where a traditional ceiling is not required but good acoustic properties are. Have the flexibility to mix and match colours and hang shapes from different heights to create a fun and inviting space.

# 3D Ceiling & Wall Tile

The Ambience 3D Tile range allows you to brighten and create unique spaces. Available in two different designs, Box and Wedge, this product can be run throughout a ceiling and continuously down a wall to achieve beautiful clean lines. Design and functionality is combined with this product providing superb acoustic properties.
