DEFLOK™ RETRO

DEFLOK™ RETRO provides a vertical movement allowance of + or - 35mm. While traditional steel or aluminium deflection tracks are a fantastic way to allow for up to + or - 20mm of vertical deflection, combine these with DEFLOK™ and you can achieve a huge + or - 55mm of total vertical deflection. Utilised in IL2, IL3 and IL4 buildings.

COMPONENTS/ 1 x DEFLOK™ plus 2 x BC45 top connectors.

VARIATIONS/ Available in TIMBA & VERT configurations if required.

STOCK CODE/ DFK-10R
