

## Ecological Data

April 2021

### 12. ECOLOGICAL DATA

#### SUMMARY

This material is not considered to be ecotoxic. Dust generated from this material is not considered ecotoxic.

#### SUPPORTING DATA

<b>Aquatic</b>	The mixture of not considered to be toxic in the aqueous environment.
<b>Bioaccumulation</b>	Fenta Ceiling Tiles are not considered bio persistent.
<b>Degradability</b>	No data
<b>Soil</b>	The mixture is not considered to be toxic in the soil environment.
<b>Terrestrial vertebrate</b>	This product is not considered harmful to terrestrial vertebrates. No LC50 (diet) data for ingredients are available and the classification is based on the LD50 (oral) – see Section 11 – Oral Toxicity.
<b>Terrestrial invertebrate</b>	The mixture is not considered harmful to terrestrial invertebrates.
<b>Biocidal</b>	Not designed as a biocide.
