Ceiling Insulation

APPLICATION

Mammoth™ Ceiling insulation is made in New Zealand from 100% thermally bonded polyester fibres. Mammoth™ Ceiling insulation comes in blanket and section forms. Ceiling blanket is designed to fit in the ceiling cavity, between or over the top of ceiling joists or rafters. Skillion Roof Sections are designed for ceilings where the ceiling lining is fitted to the bottom of the roof rafter. Skillion Roof Sections are semi rigid, making them perfectly suited to be friction fitted between the rafters resulting in the ultimate thermal performance.

PRODUCT FEATURES AND BENEFITS

- Mammoth™ insulation creates a healthier, more comfortable home or work environment, costing less to heat and cool.
- Mammoth™ Ceiling Insulation is BRANZ appraised and performance is guaranteed for 50 years*
- Mammoth™ Ceiling Insulation is safe and easy to work with. No precautions are required for handling the product. It will not cause irritation when touched, and it gives off no odours. Mammoth™ Ceiling Blanket is easy to tear to length.
- As an added benefit, Mammoth™ will reduce noise to create a quieter environment.
- Mammoth™ products are chemical free, with no added chemicals such as formaldehyde or insecticides.
- Mammoth™ products are not affected by moisture.
- Mammoth™ is manufactured in New Zealand.
